

The following Voluntary Product Accessibility information refers to Syncfusion Essential Studio for ASP.NET.

For more information on the accessibility features of Syncfusion products, visit Syncfusion's accessibility web site at <http://www.syncfusion.com/accessibility>

Summary Table Voluntary Product Accessibility Template

Criteria	Supporting Features
§ 1194.21 Software applications and operating systems.	Not Applicable
§ 1194.22 Web-based intranet and internet information and applications.	Please refer to the attached VPAT
§ 1194.23 Telecommunications products.	Not Applicable
§ 1194.24 Video and multimedia products.	Not Applicable
§ 1194.25 Self contained closed products.	Not Applicable
§ 1194.26 Desktop and portable computers.	Not Applicable
§ 1194.31 Functional performance criteria.	Please refer to the attached VPAT
§ 1194.41 Information, documentation, and support.	Please refer to the attached VPAT

Subpart B – Technical Standards

§ 1194.22 Web-based intranet and internet information and applications.

Criteria	Supporting Features	Remarks and Explanations
(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).	Fully supported.	Essential Studio For ASP.NET controls provide default text for all visual elements that provide information. Application developers using the controls should take care to preserve this and can also the change the text as required.
(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.	Not applicable.	This functionality does not apply Essential Studio For ASP.NET controls.
(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.	Fully Supported.	
(d) Documents shall be organized so they are readable without requiring an associated style sheet.	Fully supported with minor Exceptions.	Essential Studio for ASP.NET controls provide functionality that conforms to these criteria.
(e) Redundant text links shall be provided for each active region of a server-side image map.	Not Applicable.	This functionality does not apply to Essential Studio for ASP.NET controls.
(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.	Fully supported.	
(g) Row and column headers shall be identified for data tables.	Fully Supported.	Essential Grid: Control applies different styles for column headers and with Row Header image is used to identify the Rows.
(h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.	Partially Supported.	
(i) Frames shall be titled with text that facilitates frame identification and navigation	Not Applicable.	This functionality does not apply to Essential Studio for ASP.NET controls.
(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.	Not Applicable.	This functionality does not apply to Essential Studio for ASP.NET controls.
(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the	Not Applicable.	This functionality does not apply to Essential Studio for ASP.NET controls.

<p>provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.</p>		
<p>(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.</p>	<p>Fully Supported.</p>	
<p>(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l).</p>	<p>Not Applicable.</p>	<p>This functionality does not apply to Essential Studio for ASP.NET controls.</p>
<p>(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.</p>	<p>Fully Supported.</p>	
<p>(o) A method shall be provided that permits users to skip repetitive navigation links.</p>	<p>Not Applicable.</p>	<p>This functionality does not apply to Essential Studio for ASP.NET controls.</p>
<p>(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.</p>	<p>Fully Supported.</p>	<p>When developers use the Essential Studio for ASP.NET controls, they should ensure that this functionality is preserved.</p>

Subpart C - Functional Performance Criteria

§ 1194.31 Functional performance criteria

Criteria	Supporting Features	Remarks and explanations
(a) At least one mode of operation and information retrieval that does not require user vision shall be provided, or support for Assistive Technology used by people who are blind or visually impaired shall be provided.	Fully support for applicable components.	All visual components support screen readers.
(b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 shall be provided in audio and enlarged print output working together or independently, or support for Assistive Technology used by people who are visually impaired shall be provided.	Not Applicable.	This functionality does not apply to Essential Studio for ASP.NET controls.
(c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for Assistive Technology used by people who are deaf or hard of hearing shall be provided	Not Applicable.	This functionality does not apply to Essential Studio for ASP.NET controls.
(d) Where audio information is important for the use of a product, at least one mode of operation and information retrieval shall be provided in an enhanced auditory fashion, or support for assistive hearing devices shall be provided.	Not Applicable.	This functionality does not apply to Essential Studio for ASP.NET controls.
(e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or support for Assistive Technology used by people with disabilities shall be provided.	Not Applicable.	This functionality does not apply to Essential Studio for ASP.NET controls.
(f) At least one mode of operation and information retrieval that does not require fine motor control or simultaneous actions and that is operable with limited reach and strength shall be provided.	Supported with minor exceptions.	Most of the controls can be fully utilized and navigated using the keyboard with just one key being pressed at a time. Some advanced functionality in the controls requires the user to use the mouse with fine motor control.

Subpart D -- Information, Documentation, and Support
§ 1194.41 Information, documentation, and support

Criteria	Supporting Features	Remarks and explanations
Section 1194.41 (a) Product Support Documentation provided to end-users shall be made available in alternate formats upon request, at no additional charge.	Supported.	Online documentation can be found at http://www.syncfusion.com/library
Section 1194.41 (b) Accessibility and Compatibility Features. End-users shall have access to a description of the accessibility and compatibility features of products in alternate formats or alternate methods upon request, at no additional charge.	Supported.	Information about Syncfusion's built-in access technologies is available at http://www.syncfusion.com/products/accessibility .
1194.41 (c) Support Services for products shall accommodate the communication needs of end-users with disabilities.	Supported.	Online support and forums are available at http://www.syncfusion.com/support/
