

The following Voluntary Product Accessibility information refers to Syncfusion Essential Studio for WPF.

For more information on the accessibility features of Syncfusion products, visit Syncfusion's accessibility web site at <http://www.syncfusion.com/accessibility>

### **Summary Table Voluntary Product Accessibility Template**

<b>Criteria</b>	<b>Supporting Features</b>
<b>§ 1194.21 Software applications and operating systems.</b>	<b>Please refer to the attached VPAT</b>
<b>§ 1194.22 Web-based intranet and internet information and applications.</b>	<b>Not Applicable</b>
<b>§ 1194.23 Telecommunications products.</b>	<b>Not Applicable</b>
<b>§ 1194.24 Video and multimedia products.</b>	<b>Not Applicable</b>
<b>§ 1194.25 Self contained closed products.</b>	<b>Not Applicable</b>
<b>§ 1194.26 Desktop and portable computers.</b>	<b>Not Applicable</b>
<b>§ 1194.31 Functional performance criteria.</b>	<b>Please refer to the attached VPAT</b>
<b>§ 1194.41 Information, documentation, and support.</b>	<b>Please refer to the attached VPAT</b>

## Subpart B – Technical Standards

### § Section 1194.21 Software Applications and Operating Systems - Detail Voluntary Product Accessibility Template

Criteria	Supporting Features	Remarks and Explanations
(a) When software is designed to run on a system that has a keyboard, product functions shall be executable from a keyboard where the function itself or the result of performing a function can be discerned textually.	Supported with Minor Exceptions	Essential Diagram WPF provides keyboard support for most of the functions.  All other product controls that accept focus provide keyboard support.
(b) Applications shall not disrupt or disable activated features of other products that are identified as accessibility features, where those features are developed and documented according to industry standards. Applications also shall not disrupt or disable activated features of any operating system that are identified as accessibility features where the application programming interface for those accessibility features has been documented by the manufacturer of the operating system and is available to the product developer.	Fully Supported	All Essential Studio for WPF controls do not disable any accessibility features of other products.  Application developers using the controls should take care to preserve this.
(c) A well-defined on-screen indication of the current focus shall be provided that moves among interactive interface elements as the input focus changes. The focus shall be programmatically exposed so that Assistive Technology can track focus and focus changes.	Supported with minor exceptions	Essential Tools: Supported with minor exceptions. Controls provide a well-defined onscreen indication of the current focus that moves among interactive interface elements as the input focus changes with minor exceptions such as Docking Manager, Ribbon Instance and Document Container. Essential Chart: Fully Supported. Essential Diagram: Fully Supported. Also provides hover styles and selection styles that highlight the position of the focus. Essential Gauge: Not applicable. Essential Edit: Fully Supported.
(d) Sufficient information about a user interface element including the identity, operation and state of the element shall be available to Assistive Technology. When an image represents a program element, the information conveyed by the image must also be available in text.	Fully Supported	Essential Tools: Fully supported. Controls provide enough information regarding the user interface elements and program elements, which can be used in Assistive technologies. Essential Chart: Not Applicable. Essential Diagram: Fully supported. Control provides sufficient information available in text about user interface elements and program elements

		<p>represented by images, in virtually all cases. Fully supported:</p> <p>Essential Gauge: Fully supported. Control provides enough information regarding the user interface elements and program elements, which can be used in Assistive technologies.</p> <p>Essential Edit: Not Applicable.</p>
<p><b>(e) When bitmap images are used to identify controls, status indicators, or other programmatic elements, the meaning assigned to those images shall be consistent throughout an application's performance.</b></p>	<p><b>Fully supported</b></p>	<p>Essential Tools: Not applicable.</p> <p>Essential Chart: Not applicable.</p> <p>Essential Diagram: Fully supported. Control provides functionality that complies with these criteria. The cursor changes according to the operation being performed and it is consistent throughout the program.</p> <p>Essential Gauge: Not applicable.</p> <p>Essential Edit: Not applicable.</p>
<p><b>(f) Textual information shall be provided through operating system functions for displaying text. The minimum information that shall be made available is text content, text input caret location, and text attributes.</b></p>	<p><b>Fully Supported.</b></p>	<p>Essential Diagram: Fully Supported. Control provides functionality that complies with these criteria. Text information is usually provided using the operating system only.</p> <p>Essential Tools: Not applicable.</p> <p>Essential Chart: Not applicable.</p> <p>Essential Gauge: Not applicable.</p> <p>Essential Edit: Not applicable.</p>
<p><b>(g) Applications shall not override user selected contrast and color selections and other individual display attributes.</b></p>	<p><b>Fully Supported.</b></p>	<p>All Essential Studio for WPF controls provide functionality that conform to these criteria.</p>
<p><b>(h) When animation is displayed, the information shall be displayable in at least one non-animated presentation mode at the option of the user.</b></p>	<p><b>Fully Supported.</b></p>	<p>All Essential Studio for WPF controls provide functionality that conform to these criteria.</p> <p>Essential Diagram: The nodes can contain animations if desired and also any other content can be used.</p>
<p><b>(i) Color coding shall not be used as the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.</b></p>	<p><b>Fully Supported.</b></p>	<p>All Essential Studio for WPF controls provide functionality that conform to these criteria.</p>
<p><b>(j) When a product permits a user to adjust color and contrast settings, a variety of color selections capable of producing a range of contrast levels shall be provided.</b></p>	<p><b>Supported with minor exceptions</b></p>	<p>Essential Diagram: Supported with minor exceptions. Control provides functionality that allows setting colors for almost all the elements by providing a large range of colors to choose from.</p> <p>Other products: Fully supported.</p>
<p><b>(k) Software shall not use flashing or blinking text, objects, or other elements having a flash or blink frequency greater than 2 Hz and lower than 55 Hz.</b></p>	<p><b>Fully Supported.</b></p>	<p>All Essential Studio for WPF controls provide functionality that conform to these criteria.</p>

**(I) When electronic forms are used, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.**

**Not applicable**

This criterion does not apply to Essential Studio for WPF controls.

## Subpart C - Functional Performance Criteria

### § 1194.31 Functional performance criteria

Criteria	Supporting Features	Remarks and explanations
(a) At least one mode of operation and information retrieval that does not require user vision shall be provided, or support for Assistive Technology used by people who are blind or visually impaired shall be provided.	Partially Supported.	Essential Tools: Supported in the following WPF Controls - TabControlExt, Docking Manager. Not supported in the other Essential Studio for WPF controls.
(b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 shall be provided in audio and enlarged print output working together or independently, or support for Assistive Technology used by people who are visually impaired shall be provided.	Not Applicable.	This criterion does not apply to Essential Studio for WPF controls.
(c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for Assistive Technology used by people who are deaf or hard of hearing shall be provided	Not Applicable.	This criterion does not apply to Essential Studio for WPF controls.
(d) Where audio information is important for the use of a product, at least one mode of operation and information retrieval shall be provided in an enhanced auditory fashion, or support for assistive hearing devices shall be provided.	Not Applicable.	This criterion does not apply to Essential Studio for WPF controls.
(e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or support for Assistive Technology used by people with disabilities shall be provided.	Not Applicable.	This criterion does not apply to Essential Studio for WPF controls.
(f) At least one mode of operation and information retrieval that does not require fine motor control or simultaneous actions and that is operable with limited reach and strength shall be provided.	Fully Supported.	Essential Studio for WPF controls provide functionality that conform to these criteria.

**Subpart D -- Information, Documentation, and Support**  
**§ 1194.41 Information, documentation, and support**

<b>Criteria</b>	<b>Supporting Features</b>	<b>Remarks and explanations</b>
<b>Section 1194.41 (a) Product Support Documentation provided to end-users shall be made available in alternate formats upon request, at no additional charge.</b>	<b>Supported.</b>	Online documentation can be found at <a href="http://www.syncfusion.com/library">http://www.syncfusion.com/library</a>
<b>Section 1194.41 (b) Accessibility and Compatibility Features. End-users shall have access to a description of the accessibility and compatibility features of products in alternate formats or alternate methods upon request, at no additional charge.</b>	<b>Supported.</b>	Information about Syncfusion's built-in access technologies is available at <a href="http://www.syncfusion.com/products/accessibility">http://www.syncfusion.com/products/accessibility</a> .
<b>1194.41 (c) Support Services for products shall accommodate the communication needs of end-users with disabilities.</b>	<b>Supported.</b>	Online support and forums are available at <a href="http://www.syncfusion.com/support/">http://www.syncfusion.com/support/</a>
