Our Mission

Syncfusion's mission is to produce enterprise-class components that enable developers to produce quality software, while saving their organizations time and money. With Syncfusion, developers can move beyond simply coding applications to delivering real business innovation – the elegant user interfaces, business intelligence dashboards, and sophisticated reporting that today's business users need, in the formats they demand. We firmly believe that our success is closely tied to that of our customers. To provide our customers with the very best value, we uncompromisingly strive for product excellence and offer first-rate technical support that is in-house, accessible, and fast.

About Syncfusion, Inc.

Syncfusion was founded by industry experts in 2001, originally settling into offices in Cary, North Carolina. We develop software components for the Microsoft .NET platform that are designed to meet our customers' evolving needs, whether they're working in ASP.NET, ASP.NET MVC, Silverlight, WPF, or WinForms. In 2003, our offices moved to a larger location in Morrisville, NC, where we are currently headquartered. Our products are used by thousands of developers worldwide at many of the most influential Fortune 500 companies.

More details about Syncfusion can be found on our website, www.syncfusion.com. We can be reached at +1 919.481.1974 or Toll Free in the US at 1.888.9DOTNET.
