

Walk-In

VAPT Engineer

0 to 3 Years Experience

September 2026

Job Description:

We are looking for a VAPT Engineer with 0–3 years of experience to support vulnerability assessment and penetration testing activities across applications, APIs, networks, servers, and cloud infrastructure. The candidate should have a strong foundation in cybersecurity and a willingness to develop hands-on penetration-testing skills.

Key Responsibilities:

- Perform vulnerability assessments and penetration testing for web applications, APIs, networks, servers, and infrastructure.
- Conduct vulnerability scans and analyze results using tools such as **Nmap, Burp Suite, and OWASP ZAP**.
- Perform manual validation of identified vulnerabilities.
- Identify security vulnerabilities, misconfigurations, and security weaknesses.
- Prepare VAPT reports including vulnerability details, risk ratings, evidence, impact, and remediation recommendations.
- Perform vulnerability remediation tracking and retesting.
- Conduct security testing based on **OWASP Top 10, OWASP API Security Top 10, CVSS, and CIS Benchmarks**.
- Assist with network and infrastructure security assessments.
- Support security audits, compliance activities, and customer security questionnaires.
- Research CVEs, emerging vulnerabilities, and security threats.
- Work with infrastructure and development teams to validate and remediate security findings.

Required Skills:

- Basic understanding of **VAPT and cybersecurity concepts**.
- Good understanding of **TCP/IP, networking, HTTP/HTTPS, DNS, VPN, and firewalls**.
- Knowledge of **OWASP Top 10** and common web application vulnerabilities.
- Familiarity with tools such as **Burp Suite, Nmap, Nessus/Qualys, Wireshark, or OWASP ZAP**.
- Basic knowledge of Linux and Windows security.
- Basic scripting knowledge in **Python, Bash, or PowerShell** is an advantage.
- Good analytical, troubleshooting, documentation, and communication skills.

Preferred Certifications:

- CEH
- Security+
- Relevant cybersecurity certifications

Eligibility Criteria:

- Graduates from 2022 to 2026 with a minimum of 60% in UG and PG (if applicable).
- 65% in SSLC & HSC (HSC Mandatory)
- No gaps of any kind
- Require Quick Joiners

Qualification: B.Tech / BE - Any Specialization.

Experience: 0 to 3 years

Interested and Eligible candidates can share your resumes to the following email address recruitment.chn@syncfusion.com on or before September 11, 2026.

Note: Those who attended the interview already are not eligible for this walk-in.
